Lower body only	\$20-\$25

### **DISCOUNTED PREPAID PACKAGES**

One month unlimited	\$168
Five sessions	\$189

## **Important steps to achieving the Ultimate Airbrush Tan**

To ensure that you get the very best results from your Blush airbrush tanning experience, we recommend that you follow these simple steps:

### **24 hours before tanning**

Exfoliate your entire body.

Exfoliating prior to receiving your spray tan will help to eliminate the top layers of dry and dead skin. It's important when exfoliating that you pay particular attention to rough skin areas like knees, ankles, heels and the tops of your feet as dry areas tend to absorb tanning solution faster, which can result in an uneven looking tan.

Shave or wax at least 12 hours prior to receiving your Airbrush Tan.

### **The day of your tan**

On the day of your airbrush tan we recommend that you avoid the use of deodorants, moisturizers, perfume and make-up if possible as these may inhibit the effectiveness of the tanning solution.

It's important that you have suitable tanning attire to wear after your appointment. We recommend that you have dark, loose fitting clothes and flip-flops to put on after your tanning application. Some minor rub off can occur after your spray tan. The minor rub off will easily wash out of most fabrics, some lighter colored materials, including leather, may stain.

When getting your airbrush spray tan you may wear as little as you like or a full swim suit.
